This is to certify that Vanij Periwal, and brother Manan Periwal, designed, hand built, and donated ten small blind sticks to the students of Sri Rakum school for the Blind, Bangalore. Each stick, fitted with an ultrasonic sensor and warns the user of obstacles before contact and has helped our students to move about with greater safety, confidence and independence.

We appreciate the empathy, effort and initiative shown by these young students in building these and we wish them the very best.
